

Communication and Language

We will continue to develop the children's descriptive vocabulary and emotional language through our rich text drivers and the speaking & listening opportunities planned daily such as our whole class snack time discussions.

Year R

Summer Term 1 Topic:- All aboard!

Personal, Social and Emotional Development

We will continue our work with the colour monsters, ensuring the children grow in confidence with expressing their emotions. The children will also have more chances to work independently in a range of sessions and further develop their social skills, giving them plenty of opportunities to follow and embed our 3 Bees.

Literacy

We are excited to be reading texts which all involve different types of transport. We will be writing stories, sending postcards, and continuing to read our Favourite 5 books.

Mathematics

We will strengthen our knowledge of counting in 10's to 100, as well as odd and even numbers. Children will continue to use a range of resources to help them in their maths learning such a number lines, bead strings, tens frames and numicon.

Physical Development

As well as using our new equipment to help us develop our gross motor skills we are also looking forward to taking part in gymnastics during our PE sessions.

Understanding the World

We will continue to have a weekly forest session so the children can continue to foster their love for the outdoors. There will also be many chances in discovery time to explore the world around us. The curiosity cube will continue to be used to develop curiosity, awe and wonder, hosting a range of items for children to wonder over. The children are also going to be thinking about healthy food and drink choices, keeping our bodies healthy and our minds.

Expressive Arts and Design

We are going to be exploring a range of materials to create transport themed art. We will be looking at seascapes, and using junk modelling to create our own form of transport.

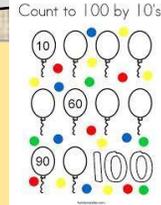

Year R Summer Term 1 - How can you help your child's learning at home?

Sing

We will continue to sing nursery rhymes at school - which one is your favourite? You may also like to practise singing your favourite song to perform for us at school.

Count

Keep on counting! How far can you count? Can you count backwards? Can you count in 10's to 100? You could also continue work on odd and even numbers. Remember even numbers have a friend.

Explore

What changes do you notice from winter to spring/summer? Could you make sketches of any new growth in the garden or park? Maybe you could take photos of the world around you and create your own collage.

Make

Can you make your own healthy lunchbox? Maybe you can help your adult to plan a healthy dinner or snack. You could even write the menu.

Write

Keep practising writing your name. You are all doing so well! Can you write a thank you card for someone that helps you and keeps you safe?

Read

Keep going with your daily reading. You're all doing an amazing job! You could also look at non-fiction books in your local library. Can you find any books about travel?

New vocabulary

explore,
investigate,
predict,
